

Red River Parish

Adult Skills & Opportunity

Mapped Providers: BPCC

Sources: Census Bureau 2023 ACS 5 Year Estimates, [NCES PIAAC](#)

Adults Without Foundational Skills

1,037 adults in Red River Parish lack a high school diploma or equivalent and 2,757 struggle with basic reading, writing, or math skills.

Economic Impact of Adult Education

Labor Force Participation

Median Annual Earnings

Adults earning diplomas are **more likely to join the workforce**, reduce their risk of poverty by 42%, and rely less on public assistance—all while helping employers fill jobs with skilled, ready workers.

Adult Education Opportunity

Double the Diplomas. Double the Returns.

\$21 return
for every
\$1 invested

Adult education pays off. Every dollar spent creates \$21 in economic return through higher wages and reduced costs.

\$18k
needed to close the
adult skills gap

An increased annual investment would help Red River produce 2x more graduates, strengthening the local workforce.

\$760 million added
in local
wages over 10 years

Just doubling the annual number of grads once – from 5 to 10 – would boost incomes, increase tax revenue, and lower public costs.

One diploma can transform a life – **thousands can transform a community!**
